

# Patient Access Integrated Registry Supply **PAIRS**

*Belgium*

**PAIRS is designed to help Health Care Providers access Roche medicines for Pre-Approval Access, Post-Trial Access & Compassionate Use**

**PAIRS provides:**

- Accelerated patient approval and medication shipments
- Ability to delegate tasks to other appropriate hospital personnel (e.g. pharmacist)
- Ability to monitor the approval status of your requests online
- Easy to use platform with simple access from any desktop or mobile device

# Find out more by viewing our online PAIRS introductory video at
